Wawa AFTERSALES SUPPORT

Urban Mobility Solutions

In order to provide our customers with high quality service and shortest response times in the event of an incident, we run 24/7 customer service with one unique contact number. This service is available for all customers, regardless of the contracted maintenance model.

24/7 CONTACT CENTER

We have developed an efficient preventive maintenance system. We use state-of-the-art vehicle tracking systems and fleet management software tools in order to actively monitor our customers' fleets and advise them on the maintenance activities.

PREVENTIVE MAINTENANCE

Corrective maintenance services are run according to detailed and manufacturer-approved service protocols. The services are provided both on-site and in our professional service facilities. If the vehicle cannot be serviced properly on customer's premises, we transport the vehicle to one of our nearest service workshops.

VEHICLE SERVICE & REPAIR

We keep a substantial stock of spare parts of all our brands to always provide quickest and most efficient service.

SPARE PARTS

In certain cases, we can provide replacement vehicles or offer one of the vehicles from our stock.
